

HOSPITALITY TV SYSTEM

**Centrally managed,
flexibly deployed –
the innovative
platform available
as cloud and
on-premises**

PRODUCT OVERVIEW

The **GSS Hospitality TV System** is the modular solution for professional deployment in hospitality environments. From straightforward TV distribution to centralized management of complex infrastructures, the platform enables hotels, clinics, and operators to efficiently manage endpoints, channel lists, and media content – across single or multi-site deployments.

DEPLOYMENT MODELS

• LIFETIME LICENSE MODEL

One-time investment with optional software maintenance – enables predictable project budgeting and long-term TV compatibility

• SaaS MODEL (SOFTWARE AS A SERVICE)

Usage-based and flexibly scalable – ideal for project-oriented or dynamic operating environments

• FREEMIUM MODEL

In combination with selected TV manufacturers – for rapid evaluation and straightforward system integration

USE CASES

VARIANT-DEPENDENT*

- ✓ **BUDGET & MIDSACLE CHAINS**
Scalable platform for digitally savvy hotel concepts with centralized management and predictable licensing costs
- ✓ **LIFESTYLE & URBAN HOTELS**
Brand-oriented TV interface with flexible design and open integration structure
- ✓ **PREMIUM HOSPITALITY**
A scalable guest experience platform with personalized communication, offering all premium services
- ✓ **CLINICS & CARE FACILITIES**
Demand-driven TV solution with a clear structure and intuitive usability
- ✓ **SERVICED APARTMENTS**
Centrally managed TV platform for decentralized hospitality concepts

*Depends on the license package

GSS HOSPITALITY TV SYSTEM

FEATURE OVERVIEW

• ARCHITECTURE & INSTALLATION

- Cloud or on-premises installation (appliance)
- API and webhook interfaces for system integration

• LOCATION & DEVICE MANAGEMENT

- Centralized management of multiple properties and brands
- Assignment of devices to groups and rooms
- Remote configuration and status overview per location

• CHANNEL LIST MANAGEMENT

- Dynamic channel lists by language, group, or room
- Support for EPG, language selection, and subtitles
- Access restrictions and parental control options

• CMS & USER INTERFACE

- Central media and content manager
- Customizable TV user interface (UI) via flexible CSS design
- CI-compliant brand visibility directly on guest / resident TV

• GUEST / RESIDENT FEATURES & SMART SERVICES

- Interactive information pages: weather, menus, travel information, hotel services, and much more
- Interfaces to e-mobility and third-party providers

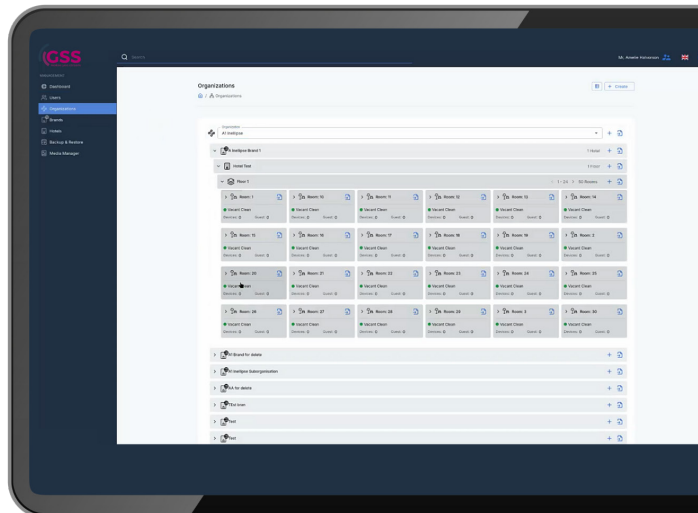

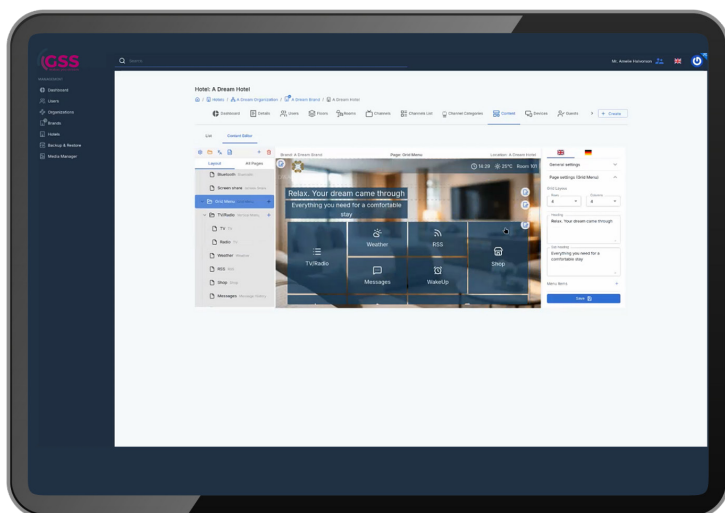

• COMPATIBILITY & INTEGRATION

- Support for various TV manufacturers
- Integration of native device apps, including Chromecast

GSS HOSPITALITY TV SYSTEM

A FUTURE-PROOF **HOSPITALITY TV SYSTEM** – WITH CLOUD, API, AND SMART ROOM FUNCTIONALITY

SEAMLESS INTEGRATION INTO GSS SYSTEMS

Direct connection to GSS headends makes the **GSS Hospitality TV System** more efficient, low-maintenance, and flexibly expandable:

- ✓ **EPG WITHOUT DETOURS**
EPG data directly from the headend – no external services required
- ✓ **CENTRAL CHANNEL MANAGEMENT**
Automated transfer of channel lists from the headend to middleware
- ✓ **INFO CHANNELS & STREAM ROUTING**
Selective display of information channels or IP streams (e.g., weather cameras)
- ✓ **NETWORK OPTIMIZATION WITH QOS**
Bandwidth-friendly, request-based transmission – ideal for WAN streaming

GSS HOSPITALITY TV SYSTEM

FLEXIBLE LICENSING MODELS – SUITABLE FOR EVERY PROJECT

The **GSS Hotel TV Management System** is available in four license packages.

The choice of license depends on the range of functions, the degree of integration, and the respective application scenario – from individual properties to hotel chains.

Providing complete flexibility for integrators, distributors, and operators – manufacturer-independent and openly integrable:

LICENSE PACKAGE	APPLICATION (RECOMMENDATION)
CORE (FREEMIUM)	Strategic entry-level model in cooperation with selected TV manufacturers – reduced functionality, optimized for rapid market penetration
CORE +	Scalable base platform for professionally managed facilities, individual properties, and smaller hotel groups
URBAN	Advanced TV platform for brand-oriented venues and hotels with high design and service requirements
PREMIUM	Fully equipped guest and patient experience solution with comprehensive service and expansion modules
